SUMMARY

I'm Senior Product Designer with growth focused approach, 7+ years of experience designing B2C and B2B SaaS products across mobile (iOS & Android) and web. Specialize in subscription flows — paywalls, trials, upgrades, in-app purchases — and conversion optimization, with a proven track record of improving conversion and task success rates by 20–30% through redesigning onboarding, monetization surfaces, and key user journeys. Work data-driven: combine analytics, product metrics, and user research to ship what actually moves numbers. Build and maintain scalable design systems in Figma with clean developer handoff. Computer Science background enables seamless collaboration with engineering and design decisions informed by technical constraints.

KEY ACHIEVEMENTS

- Improved conversion rate and task success rate by 20–30% through redesigning key user flows, onboarding logic, and interaction patterns across B2C and SaaS products.
- Transformed broad product concept into focused MVP strategy through competitive analysis and user validation, repositioning target market and achieving 80% positive user intent.
- Cut development costs by 80% by replacing AI feature with adaptive logic solution and built scalable design system enabling independent developer execution.
- Rebuilt and scaled atomic design systems, standardizing components, variants, and tokens, resulting in consistent UX across SaaS platforms.
- Improved team efficiency by ~30% through auditing and reorganizing Figma files, naming conventions, and library structures.
- Performed a full UX audit and created detailed design guidelines and advanced components, improving interface consistency and cutting design-to-development time by ~40%.
- Implemented AI-assisted design workflows (Claude, Claude Code, Figma AI plugins, Figma Make), reducing design delivery time by ~25%.
- Increased product usability and client satisfaction by introducing iterative user feedback loops and optimized release processes.
- Mentored junior designers, conducted design reviews, and led training sessions to establish structured design processes and foster best practices in UX/UI and cross-team collaboration.
- Delivered end-to-end design solutions for B2B SaaS platforms, healthcare and B2C mobile apps, as well as web products — from user research and flow mapping to high-fidelity UI and interactive prototypes.

SKILLS

UX: User Research, Customer Journey Mapping, Wireframing, Prototyping, Usability Testing

UI: Design Systems, Figma Variables & Auto-layout, Responsive Design, Mobile-First, iOS HIG, Material Design, Microinteractions, Accessibility

Product: Product Thinking, Subscription Flows, Paywalls & In-App Purchases, A/B Testing, Metrics & Analytics, CR Optimization

Tools: Figma, FigJam, Miro, Notion, Jira, AI-assisted Design (Claude, Claude Code, Figma AI plugins, Figma Make etc)

Soft Skills: Cross-team communication, feedback culture, leadership, adaptability, ownership, curiosity, and continuous learning.

PROFESSIONAL EXPERIENCE

Product & UX/UI Designer | Devshore Partners Oct 2025 – Mar 2026

- Joined the project at the raw idea stage - transformed an unstructured concept into a defined, build-ready product
- Defined product vision, core value proposition, and structured the full feature architecture for the MVP
- Designed the engagement model (home areas system, task architecture, etc) aligned with real-life user behavior
- Scoped and prioritized MVP features to balance user value, technical feasibility, and time-to-market
- Built gamification strategy (weekly streak + milestone achievements) focused on long-term retention and habit formation
- Acted as a strategic product partner to the client - translating business goals into scalable product decisions and roadmap direction
- Designed subscription engagement model focused on long-term retention, habit formation, and measurable conversion across key funnel stages.

Product & UX/UI Designer | DDI Development May 2024 – Sep 2025

- Rebuilt and scaled atomic design system to ensure visual and functional consistency across SaaS platforms.
- Conducted UX audits and provided guidelines that improved usability, accessibility, and overall product consistency.
- Designed user flows, interactive prototypes, and new features, aligning with business objectives and user needs.
- Integrated AI-assisted design tools (Claude, Claude Code, Figma AI plugins) to accelerate ideation and copywriting.
- Collaborated closely with developers, PMs, and stakeholders to ensure smooth implementation and high-quality delivery.

UX/UI Designer | in Northell Nov 2023 – May 2024

- Mentored 2 junior designers; reviewed work and guided projects.
- Outstaffed to US B2B SaaS startup → designed dashboard & flows.
- Led design of internal wellbeing app Eleviate.
- Delivered end-to-end UI/UX process: research, wireframes, prototypes, final UI.
- Collaborated with devs & BA on redesigns and rebrandings.

UX/UI Designer | in Grid Dynamics Jan 2022 – Aug 2023

- Facilitated client workshops to map user journeys and clarify requirements.
- Maintained and expanded an enterprise-level design system across a single large-scale product, ensuring consistency and scalability of components.
- Conducted internal training for design trainees, improving team capabilities and maintaining high standards.

Freelance UX/UI Designer Feb 2021 – Jan 2022

- Delivered web and mobile designs for 10+ clients, redesigning products and optimizing user flows.
- Conducted competitor research, UX analysis, and developed personas, user journeys, sitemaps, and interaction logic.
- Achieved 100% job success and Top Rated status for reliability, quality, and impact.

UX/UI Designer | in AIT, Inc. Jan 2019 – Feb 2021

- Designed UI for B2C and B2B mobile apps (iOS & Android) and web products, focused on adaptive, intuitive interfaces.
- Focused on responsive design, accessibility, and cross-platform UX consistency.
- Collaborated with developers to ensure accurate implementation of high-quality designs.

EDUCATION

Bachelor in Computer Science, Lviv Polytechnic National University, 2016 – 2020

Projector – Growth Design

Projector – Product Analytics

Maxym Soldatkin Web Design School – Web Designer Profession

Okten Web – HTML/CSS Course

Udemy – UI/UX Design Essentials

Skill Up – Photoshop from Zero in Lviv

Voloshyn Oleksandr – Online UX Digital Product Design Course with Mentoring

LANGUAGES

English – Advanced

Ukrainian – Native
